

BIG NEWS

Open enrollment is upon us and we are so excited!

2018 has been a phenomenal year and now it's time to end it with a BANG! Adroit Health Group (AHG) is very appreciative for your support and sales volume during this past year. And we're pleased to share some great new things with you.

New Products

AHG has added several new products for OE which includes United Health One STM. We have added several additional products to offer your customers which will enhance your ability to pay for your lead cost and provide lasting value as well.

New Customer Service Center

Effective November 1st, AHG will take over ALL Customer Service calls for our members and agents. AHG has made the investment by adding over 40 Customer Service Representatives and 5 licensed agents to our Member Advocacy Team (MAT). We are committed to providing the best service and customer experience in the industry. This will help to also improve persistency and retention with our members which means consistent commissions for you.

Rate Increase on Some Products

In order to provide these valuable services, we are passing along a modest rate increase on some products. These increases will be reflected in the product price.

We are prepared for a great Open Enrollment
and a great 2019 when the individual mandate
is totally eliminated for the entire year!

Let us know how we can better serve you!

If you have any questions about this communication, please contact Agent Services at agentservices@adroithealthgroup.com or call (800) 319-7061.

Thank you,
Adroit Health Group
