

We're almost ready to **LAUNCH!**

Open Enrollment is just around the corner
and we'll have some exciting new plans
available soon.

These plans will feature:

- Longer durations for the short-term medical plans
- New United Healthcare STM plan – billing through AHG
- New Pivot STM LITE version with First Health network included

According to CNBC and CNNMoney, early reports indicate premium increases of between 16-30% (depending on the state) for consumers already enrolled in Obamacare/ACA compliant plans. But thanks to the repeal of the state mandate and expansion of policy terms for STM plans, offering an STM plan to your clients is a great alternative option!

More information to follow on these
great new products!
